CURRICULUM VITAE · UPDATED OCTOBER 2026

Andrew "Drew" Reeve

Economist and data scientist working on water, resources and development in the Andes and the American West. Lolo, Montana · drew.reeve@gmail.com · drew-reeve.github.io/portfolio · linkedin.com/in/drew-reeve

RESEARCH INTERESTS

Development and resource economics; access to and control of water; how much of the value of extraction and export agriculture stays with host communities; economic effects of glacier and snowpack loss on downstream water users; public lands, access and recreation economies.

EDUCATION

M.S. Technology Innovation, emphasis in Database Architecture & Software Engineering — 2026

University of Advancing Technology

- Coursework in database architecture and software engineering, full-stack development, AI and machine learning, and technology leadership.

M.S. International Affairs and Global Enterprise (MIAGE) — 2015

University of Utah

- Coursework in international community development, international economics and international business.
- Capstone: The World's Struggle for Clean Water.

B.S. Economics · B.A. Political Science · B.A. International Studies — 2011

University of Utah

- Minor in Latin American Studies; Certificate in International Relations.
- Phi Beta Kappa; Hinckley Institute of Politics Scholar; Lowell Bennion Center student volunteer coordinator.

RESEARCH & ANALYSIS EXPERIENCE

Research Analyst & Data Scientist — 2018–2023

ELITechGroup (formerly Wescor), Logan, Utah

- Designed and analyzed instrument validation studies, including a co-authored white paper on automated white-blood-cell classification across stain settings (124 slides, 8 variables).
- Built weekly, quarterly and annual performance reporting; analyzed competitor offerings, market developments and the global installed base to inform product strategy.
- Worked with R&D engineers on product development from concept through launch, including reference-data management and change control.

Regional Labor Economist — 2017–2018

Utah Department of Workforce Services, Workforce Research & Analysis Division

- Researched labor-market trends for Northern Utah (Cache, Rich, Box Elder, Davis and Weber counties) using BLS, Census and state data.
- Produced monthly, quarterly and annual regional reports and county economic dashboards in Tableau; presented findings to community leaders and answered stakeholder data requests.

Field Assessment & Report Author — 2026

2026 Lolo Trail Condition Assessment, for the Lewis & Clark Trail Alliance

- Logged field GPS data, built the segment inventory and wrote and compiled the 34-page report rating 22 trail segments. Case study.

PUBLICATIONS & REPORTS

Fairchild, W., Jones, C., Dudgeon, C., Reeve, A., and Rudd, L. (2026). *2026 Lolo Trail Condition Assessment Report: Findings and Recommendations for Annual Maintenance and Reconstruction.* Lewis & Clark Trail Adventures for the Lewis & Clark Trail Alliance.
